VARDEX NPA 29

vargus
NEUMO Ehrenberg Group

NEW

VARDEX NPA 29 11/2015

FLINE

Fixed Clamping System

NEW

Insert Stability & Superior Accuracy

Features:

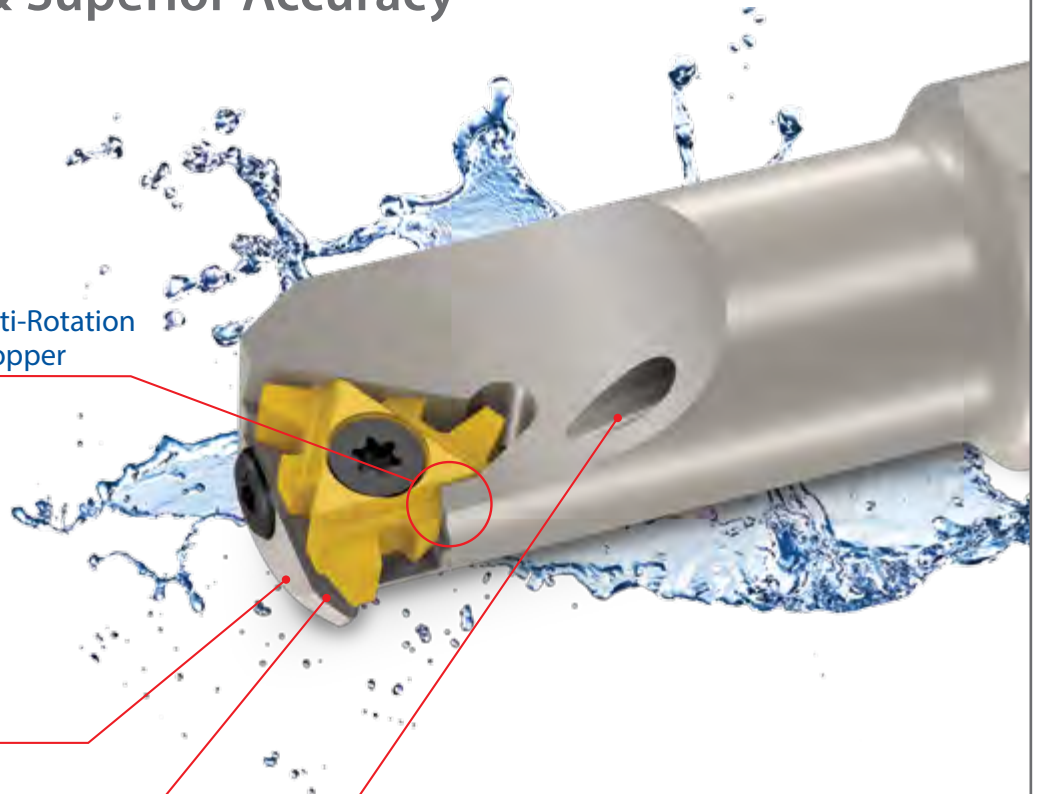

Anti-Rotation
Stopper

Unique toolholder support
suited for high loads

Reinforced anvil -
Extra support for the cutting corner

All internal toolholders come with coolant thru

Benefits:

Anti-Rotation Stopper

- Lasting and precise threading profile perpendicularity, ensuring compliance with standard specifications
- Uncompromising profile accuracy

Toolholder Support

- Superior surface finish
- Extended tool life for exceptional cost-effectiveness

Reinforced Anvil

- Optimal support for the cutting edge

Nickel Coating

- Better wear resistance and anti-corrosion protection

F-LINE

Fixed Clamping System

Tool Range

- Available in IC 1/2" F, in Standard and Multi+ styles
